

# DAIRYFlex

The Next Generation... *Seeing is believing*

## DairyFlex-Lite FDA Rubber Food Hose Type T5715

### Flextech launch next generation hygienic hose

**Save £300 per day\***

Flextech is proud to announce the launch of its new superior dairy hose to the UK market.

This revolutionary range of FlexTech dairy food hose is now in stock.

**DAIRYFlex** is designed to give a unique combination of flexibility, abrasion and friction resistance never before seen in the dairy market place. This is a high quality product with excellent longevity at a very affordable price

#### **DAIRYFlex** range offers:

- ✓ **Special high quality FDA non tainting liner**
- ✓ **25% more flexibility than other leading brands**
- ✓ **Special anti-abrasion cover**
- ✓ **Specially formulated easy slide exterior cover making lighter work for operators**

The **DAIRYFlex** range is available with a smooth outer cover as standard and also in a **crush** proof version or corrugated **lite** version, which is not only lighter for those high level connections, but also offers greater flexibility when tighter bends are encountered.

**\*As well as introducing DairyFlex to you, we are offering a full site survey, complete with hose tagging and electronic database which usually costs £300 per day, free of charge to the first twenty enquiries received.**

For further information regarding any of the new dairy hose range or to arrange a site survey, please contact our sales team on 01753 570099 or [Sales@FlextechHose.co.uk](mailto:Sales@FlextechHose.co.uk)

All our products and services including the new brewery and dairy hoses are available to view on [www.FlextechHose.co.uk](http://www.FlextechHose.co.uk)
